This listing of claims will replace all prior versions, and listings, of claims in the application:

<u>Listing of Claims:</u>

1.   (**Currently Amended**) A computer-implemented method for creating a presentation, comprising:

(a)   receiving a goal, the goal <u>in a specific task</u> being associated with a training objective of a student <u>in a business simulation application</u>;

(b)   integrating information that motivates accomplishment of the goal <u>by the student</u>;

(c)   evaluating the progress toward the goal and ~~provides~~ <u>providing</u> feedback that further motivates accomplishment of the goal for use in the presentation; and

(d)   adjusting the feedback based on progress of the student toward the goal <u>to help the student complete a business deliverable</u>.

2.   (**Previously Presented**) The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on a number of help sessions the student accesses.

3.   (**Previously Presented**) The computer-implemented method for creating the presentation as recited in claim 2, including evaluating the progress based on work completed by the student.

4.   (**Previously Presented**) The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on a number of changes.

5.   (**Previously Presented**) The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on an amount of rework.

6.   (**Previously Presented**) The computer-implemented method for creating the presentation as recited in claim 1, including evaluating the progress based on an aggregate condition of work.

-2-

7.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 1, wherein user applications comprise: calendar, electronic mail, spreadsheet, contact list, word processing, task list, stocks and news.

8.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 1, wherein a tone of the feedback is adjusted based on ᵖˡ~~~~~~

10-18. Cancelled

19.   (Currently Amended) The computer-implemented method for creating a presentation, comprising:

(a)   presenting information indicative of a goal, the goal in a specific task being associated with a training objective of a student in a business simulation application;

(b)   integrating information that motivates accomplishment of the goal by the user in a simulated environment goal for use in the presentation; and

(c)   monitoring progress toward the goal and providing feedback that further motivates accomplishment of the goal in the simulated environment to help the student complete a business deliverable.

20.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 19, including simulating management of one or more resources in the simulated environment.

21.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 19, including setting a context for a problem in the simulated environment.

22.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 19, including stimulating management of preventative maintenance in the simulated environment.

-3-

23.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating recovery management in the simulated environment.

24.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating evaluative decision making in the simulated environment.

25.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating a conversation in the simulated environment.

26.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including simulating a negotiation in the simulated environment.

27.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 19, including invoking a concept parser in the simulated environment.

28-36. **Cancelled**

37.   **(Currently Amended)** The computer-implemented method for creating a presentation, comprising:

(a)   receiving indicia representative of a goal into a model, the goal in a specific task being associated with a training objective of a plurality of students in a business simulation application;

(b)   integrating information that provides assistance with achieving the goal, by the plurality of students, into a tutor for use in the presentation;

(c)   monitoring progress of the plurality of students toward the goal; and

(d)   providing feedback that further assists the plurality of students in accomplishing the goal to help the plurality of students complete a business deliverable.

38.   **(Previously Presented)** The computer-implemented method for creating the presentation as recited in claim 37, including:

-4-

(a)   receiving an indicia representative of a plurality of goals into a model;

(b)   integrating information that provides assistance with achieving the plurality of goals into a tutor; and

(c)   monitoring progress of a student toward the goal and providing feedback that assists the student in accomplishing the plurality of goals.

39.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including setting a context for a problem in a simulated environment.

40.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating management of preventative

41.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating recovery management in a simulated environment.

42.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating evaluative decision making in a simulated environment.

43.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating a conversation in a simulated environment.

44.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating a takeover in a simulated environment.

45.   (Previously Presented) The computer-implemented method for creating the presentation as recited in claim 37, including simulating a negotiation in a simulated environment.

46-54. Cancelled
